5. Silver Recovery Program: During this reporting period a total of four pieces, 8,282 pounds of burn materiel was delivered to Fort Meade, MD for processing. One each from [ ] and NPIC. Two pick-ups were made from DIA. [ ]

25X1

B. New Packaging for Wangs: A new design has been developed to insure adequate protection during shipment for the new (Wang) disc-drives. Station limitations have made pouch shipment of these disc-drives very difficult. These items are very fragile and are being shipped without their racks. Premium pack wooden boxes and proper amounts of cushioning must be used. The pack itself is much like the one used on the SC-3 unit disk drives. [ ]
